

## Successful R22 Darwin Main Projects, Scoping Awards and Fellowships

Project Ref	Title	PL	Org	Country
<b>Main Projects</b>				
23-001	Strengthening Cameroon's capacity to implement CITES	Paul De Ornellas	ZSL	Cameroon
23-002	Important Plant Areas in Guinea-Conakry	Martin Cheek	RBG Kew	Guinea
23-003	Eradicating invasive species from the highest priority Caribbean island	Jenny Daltry	FFI	Antigua & Barbuda, Montserrat
23-004	Ex-situ conservation of threatened plants from the Ivoloina - Ifontsy valleys, Madagascar	Maya Moore	Madagascar Fauna and Flora Group	Madagascar
23-005	Promoting the use of plant resources in research and development	Suzanne Sharrock	BGCI	Ethiopia
23-006	Translocating conservation success and skills-exchange across four Indian Ocean countries	Jim Groombridge	University of Kent - DICE	Seychelles, Mauritius, Comoros, Madagascar
23-007	Safeguarding Mesoamerican crop wild relatives	Richard Jenkins	IUCN	El Salvador, Guatemala, Honduras, Mexico
23-008	Upgrading and broadening the new South-Pacific International Coconut Genebank	Alexia Prades	Bioersity International	Fiji, Samoa, Papua New Guinea
23-009	Sustainable rangeland management to protect redpandas and herder livelihoods	Joanne Millar	Charles Sturt University	Bhutan
23-010	Implementing a model for sustainable forest management in Cambodia	Jonathan Eames	Birdlife International	Cambodia
23-011	Transforming marine resource management in the Republic of Congo	Brendan Godley	Centre for Ecology and Conservation	Congo, Gabon
23-012	Improving Marine Biodiversity and Livelihood of coastal communities in Principe	Annette Broderick	University of Exeter	Sao Tome and Principe
23-013	Living with Tigers in Nepal: poverty reduction for human-wildlife coexistence	Alexandra Zimmermann	Chester Zoo	Nepal
23-014	Improving livestock management for economic-environmental stability in Mesoamerica's Mosquitia	John Polisar	WCS	Nicaragua, Honduras
23-015	Guniea pigs as guinea pigs, reducing bushmeat hunting while improving communities wellbeing	Michelle Wieland	WCS	Congo (Democratic Republic)
23-016	Yerba mate – a market-driven model for conserving Paraguay's Atlantic Forest	David Thomas	Birdlife International	Paraguay
23-017	Building resilient landscapes and livelihoods in Burkina Faso's shea parklands.	Cath Tayleur	Birdlife International	Burkina Faso
23-018	Alleviating rural poverty through conflict mitigation and improved crop yields	Andrew Loveridge	University of Oxford, WildCRU	Zimbabwe, Botswana
23-019	Achieving No Net Loss for communities and biodiversity in Uganda	EJ Milner-Gulland	University of Oxford	Uganda
23-020	Sustaining biodiversity, livelihoods and culture in PNG's montane forests	Richard Cuthbert	WCS	Papua New Guinea
23-021	Promoting biodiversity in sustainable oil-palm landscapes for West African smallholders	Keith Hamer	University of Leeds	Ghana, Malaysia
23-022	Developing Long-term Stakeholder Capacity for Elephant Conservation in Mali	Susan Canney	The WILD Foundation	Mali, Burkina Faso
23-023	Can health investments benefit conservation and sustainable development?	Gladys Kalema-Zikusoka	Conservation Through Public Health	Uganda
23-024	Securing marine fisheries, livelihoods and biodiversity in Myanmar through co-management	Martin Callow	WCS	Burma
23-025	Reducing environmental degradation through sustainable fuel interventions in Afghan communities	Anthony Miller	RBGE	Afghanistan
23-026	Domestication of the Mulanje Cedar for improved livelihoods	Paul Smith	BGCI	Malawi
23-027	Cultural and economic incentives for endangered species conservation in Cambodia	Jackson Frechette	FFI	Cambodia

## Successful R22 Darwin Main Projects, Scoping Awards and Fellowships

Project Ref	Title	PL	Org	Country
23-028	Connecting coastal communities for integrated seascape management in Atlántida, Honduras	Robert Bensted-Smith	FFI	Honduras
23-029	Investing in agroforestry options for forest restoration in Indonesia	Mangara Silalahi	Burung Indonesia	Indonesia
23-030	Harmonizing land use in Save Valley Conservancy, south-eastern Zimbabwe	Cathy Dean	Save the Rhino International	Zimbabwe
23-031	Science-based interventions reversing negative impacts of invasive plants in Nepal	Mark Watson	RBGE	Nepal
23-032	Local economic development through “pro-poor” gorilla tourism in Uganda	Dilys Roe	IIED	Uganda
23-033	Marrying community land rights with stakeholder aspirations in Indonesian Borneo	Matthew Struebig	University of Kent - DICE	Indonesia
23-034	Edible wild orchid trade: sustaining livelihoods and biodiversity in Zambia	Ruth Bone	RBG Kew	Zambia
<b>Scoping Awards</b>				
EIDPS167	Conservation and sustainable use of chameleons in Tanzania	Richard Jenkins	IUCN Global Species Programme	Tanzania
EIDPS168	Protecting Yap's Biodiversity by Eradicating Invasive Alien Species from Islands	Tommy Hall	Island Conservation	Micronesia
EIDPS169	Creating sustainable lives for people and wildlife in northern Kenya	Simon Maddrell	Excellent Development	Kenya
EIDPS170	A landscape management model for conserving biodiversity in the Comoros	Thomas Sberna	Dahari	Comoros
